- Germany, our biggest wholesale market, continued to show healthy growth.
- Growth momentum spurred by over 20% growth in each of Benelux, France and Hong Kong.
- Added approximately 400 shop-in-stores and/or franchised shops internationally.
- Achieved brand dominance, one of the best selling brands in department stores in Germany.
- Launched the discretionary limit programs in Europe with success and will continue to extend it this year.

Total Wholesale Turnover
HK$5,220m
### Retail - ↑12% YoY

- **Total Retail Turnover**: HK$3,841m
  - **Others**: 38%
  - **Hong Kong**: 16%
  - **Benelux**: 11%
  - **Germany**: 35%

- Secured many strategic store locations worldwide, sales footage up by 16% to approximately 1.6 million sq. ft. after investing over HK$300 million.

- Operating margin was affected by the discount-driven environment and the incremental rental expenses from new stores.

- Comparable store sales were flat overall, with growth in Europe in excess of 10%.

- Injection program, instrumental behind the strong comp store growth in Europe, had led to better merchandise and more full-price sales.

- Asia Pacific achieved growth in the quantity of ESPRIT merchandise sold, reflective of our ability to maintain market share in the tough operating environment.
Sourcing - ↑16% YoY

- Plays an integral part in supporting the Group’s success, especially in the current highly competitive retail environment

- Sourcing higher quality products at a lower cost with faster delivery were made possible by our close ties with over 330 suppliers located throughout Asia Pacific and Europe

- About 50% of products sold in Europe were sourced from Asia Pacific

- Plan to progressively move sourcing functions to less expensive area, such as Shenzhen, and shift to lower cost suppliers in Northern China to reduce costs of goods
Licensing & Others - ↑17% YoY

- Added 5 licensees, for products such as sleepwear and swimwear, as part of the U.S. acquisition earlier this year
- Enlisted new licensing partners, such as Nine West for shoes and accessories and Adjmi for kids’ wear
- Now has over 15 product licensees spanning more than 10 product categories
- With full control of the ESPRIT brand, we will be actively identifying suitable partners in new markets, for new product categories and lifestyle concepts
Our Profitable China Joint Venture

- Turnover growth momentum continues
  - Over 30% annual growth in 2001 to over HK$500 million
  - Approximately 20% growth YoY in first six months of 2002
- Added 12 directly managed retail stores and 130 franchised shops, totaling to approximately 600 points-of-sales
- Working to improve services and upgrading shop image to meet the expectations of the rising middle class
- Maintain target to reach HK$1 billion retail sales in 2003
17.3% EBITDA Margin - Exceeded our Target Range of 15 - 17%

</tr>
</tbody>
</table>

- Better economies of scale as wholesale turnover growth continued
- Downward adjustment in rental costs as we renew leases was offset by the increase in building expenses for new stores in prime locations
- Launched a vigorous expense management program to reduce wastage and inefficiencies, leading to a decline in staff costs and administrative expenses
- Minimal currency translation impact for the period

* Inventory turnover (days) is defined as average inventory / average daily cost of goods sold.
Additional HK$31 million in trademark amortization charge for this fiscal year

- Under the new HKSSAP, there is a rebuttable presumption that the useful life of an intangible asset will not exceed 20 years (versus 40 years previously adopted by the Group)

- The Group has reviewed the estimated useful life of its trademarks with a firm of qualified independent appraisers, which is of the opinion that our trademarks have an indefinite economic life with at least 40 years

- But, the criteria prescribed by HKSSAP in establishing a useful life for a specific period longer than 20 years could not be unequivocally satisfied

- Accounting regulatory bodies are reviewing this accounting standard and the Group envisages reassessing application of this standard in 2003 which, if unchanged, will result in about HK$100 million in trademark amortization charge for FY02/03
Latest Developments in North America – Initially Capitalize on Brand Awareness with Minimal Capital Commitment

- Leverage on existing global infrastructure to minimize costs
- Wholesale strategy to achieve a meaningful nationwide rollout by forming partnerships with leading department stores
  - Our fall collections of women’s wear are being sold in Macy’s
- Teaming up with local market leaders with multi-channel distribution capabilities as our product licensees
  - Nine West and Adjmi will commence selling ESPRIT products in early 2003
- Integrate Canadian operations into the North American management structure and to commence wholesale distribution in Canada
- Gradually build up experience in the North American market and target for approximately US$100 million of turnover commencing in FY03/04
- For FY02/03, the US$150 million asset acquisition has eliminated the 37% minority interest in Esprit International, thereby capturing approximately HK$80 million profit before tax based on FY01/02 results
Looking Forward to Achieving a Decade of Continual Growth

- Increase our women’s wear collections from 6 to 12 per year to cut product development lead time and to offer more trend-right merchandise, thus more full-price sales

- Expand retail space, budgeted HK$400 million in capex to add over 200,000 sq. ft.

- Continue to win market share in Europe with additional retail space and without sacrificing margins

- Asia Pacific revenue is expected to be stable, but we are working to improve margins and profitability

- Focus on further growth in North America, Benelux, U.K. and China
Corporate Governance – Substance over Form

- Esprit has been ranked in 2002 by:
  - Finance Asia magazine: one of the “Best Managed Company,” “Company most dedicated to Corporate Governance,” and “Strongest Commitment to Enhancing Shareholder Value” in Hong Kong
  - The Asset: one of Hong Kong’s “Best in Corporate Governance”
  - CFO Asia: one of Asia’s “Best Annual Report”
- Rotated audit partners (including Hong Kong and Germany)
- Restricted our firm of auditors from undertaking major consultancy work to avoid potential conflicts of interest
- Early adoption of HK accounting standards as a matter of best practice
- Proactively promote investor relations for better transparency
- In FY02/03, we will:
  - Commence formal quarterly meetings of the Board and the Audit Committee
  - Appoint an external firm to handle the internal audit functions
2001 Share Option Scheme

- Will continue to use share options as incentive for key personnel to enhance shareholder value, and for recruitment and retention of talents; no options have been issued so far
- Support expensing share options but will await uniform standards for Hong Kong listed companies
- 14.6 million outstanding stock options (approximately 1% of the issued capital*) expiring on or before November 2003 – orderly disposal will continue

Broaden Shareholder Base

- Reduce board lot size from 2,000 to 500 shares effective September 23, 2002
- Lower barrier of participation for retail investors

* 1,177 million shares issued as of June 30, 2002
Relative Share Price Performance since July 2001

Increases / Decreases from July 1, 2001 to latest applicable date (as of 18:00 Hong Kong Time on September 17, 2002)
Also Outperformed the Hong Kong Indices

- Relative to Hang Seng Index: ↑ 95%*
- Relative to MSCI Hong Kong Index: ↑ 83%*

* Since July 1, 2001
Valuation Compares Favorably with Global Leaders
